Founded in 2014 by the remainders of Copykill (Boris and Sascha) and In Blood We Trust (Chris and Nils) CONTRA rose to life and they teamed up with Norman (ex Fallbrawl/Reduction) to play ruthless and brutal metalcore they were missing from the infamous ruhrpott music scene. So the debut album „False Gods“ was recorded at Marc Goerts' (Caliban) studios right away and soon after CONTRA signed with One Life One Crew. Their debut release is set for fall 2016 and they are ready to conquer stages worldwide to make a name for themselves. So brace yourselves for Ruhrpott's newest metalcore outfit to tear down your city. This is war. This is CONTRA!
