

## **UXB**

An all new band featuring **Kerry Martinez** (Guitar), **Wade Walston** (Bass), **Chip Hanna** (Drums), and **Jesse Wagner** (Vocals).

Although the music sounds like a "Fierce, Pounding, Punk, Reggae/Surf Pop/Dystopian-inspired New Wave Playlist" --- People should not expect US Bombs or Aggrolites songs to be performed at live shows. The 4 members have written all new songs and have released a 45 single on **Bomb City Rockers Records (Phoenix b/w Night Marchers)** August 9, 2019, coincidentally the 50th Anniversary of Sharon Tate's death.

A **Full Length LP** of the new songs has been recorded in **Los Angeles** and will be released in 2020, along with live shows and personal appearances, complete with merchandise, in the **United States** and **Europe** for promotion.

With a fresh, positive outlook on life and moving forward into the future, **UXB** will excite every punk and music fan for years to come!
